## Management Flow Chart for Suspected Novel Coronavirus Infection - Health center and Private clinics

Areas where there is relatively broad community transmission of Novel  
Coronavirus Infection

Till 2020.1.24

### Incl. Wuhan and all cities in Hubei Province

- <sup>1</sup> **Fever:** Ear Thermometer temperature  $\geq 38^{\circ}\text{C}$ , or feel fever by himself with chill or shivering
- <sup>2</sup> **14 days :** Count starts after last contact/ staying time. Every 24-hrs counts as one day.
- <sup>3</sup> **Severe Acute Respiratory Infection (SARI) :** An acute respiratory infection with :
  - history of fever or measured fever of  $\geq 38^{\circ}\text{C}$  and cough;
  - onset within the last 10 days; and ;
  - requiring hospitalization.
- <sup>4</sup> **Pneumonia of unexplained aetiology :** is defined as pneumonia patient who has the following four conditions and has not already explained by any other aetiology
  - Fever( $\geq 38^{\circ}\text{C}$ ) ;
  - Pneumonia or Acute Respiratory Distress Syndrome (ARDS), based on radiological evidence;
  - Low or normal WBC count, or reduced in lymphocyte differential count in early onset;
  - No obvious improvement after antibiotic treatment for 3~5 days
- <sup>5</sup> A “cluster” is defined as two or more persons with SARI, with onset of symptoms within the same two-week period and who are associated with a specific setting, such as a classroom, workplace, household, same ward in hospital, or same region in residential institution, etc.
- <sup>6</sup> General contact : having stayed in same classroom, workplace, household, same ward in hospital, or same region in residential institution, etc., but not met the definition of close contact.
- <sup>7</sup> Close contact : having stayed within 1 metre in the same atmosphere, with no proper protection for  $\geq 30$  minutes.
- <sup>8</sup> Assessment generally after contact tracing of a confirmed case.
- <sup>9</sup> Diarrhoea is defined as three or more loose stools within 24 hrs and not as usual.
- <sup>10</sup> For example : casino dealer, hotel receptionist, restaurant waiter, taxi driver, tourist bus/ bus driver or staff with similar work nature.
