

The Macao Blood Transfusion Service is screening blood units for ZIKA VIRUS (ZIKV) RNA to further enhance blood safety in Macao. Patients who are pregnant and need transfusions will be provided with ZIKV RNA non-reactive blood/blood components.

	<p>ZIKV RNA Non-reactive blood/blood components, including: Red Cells Concentrate, Platelets Concentrate, Fresh Frozen Plasma and Cryoprecipitate</p>
<p>Blood Component Labeling</p>	 <p>ZIKV Non-Reactive</p>
<p>Scope of Intended Recipient</p>	<p>ZIKV RNA non-reactive blood/ blood components will be provided to these patients:</p> <ul style="list-style-type: none"> ● Patients who are confirmed pregnant and need blood/blood components for transfusion ● Excluding <ul style="list-style-type: none"> ✗ peripartum / postpartum patients (Blood/blood components reserved for child birth, labor induction or cesarean section need not be screened for ZIKV RNA because these blood/blood components are normally transfused after delivery of the baby.) ✗ Patients undergoing termination of pregnancy ✗ Patients with miscarriage, stillbirth, ectopic pregnancy or molar pregnancy
<p>Priority</p>	<p>In case there is a short supply of ZIKV RNA non-reactive blood/blood components, priority is given to patients with higher risks according to the following risk categories:</p> <p>Higher risk ↓ First trimester Second trimester Lower risk ↓ Third trimester</p>

1. If ZIKV RNA non-reactive blood/blood components are needed, please fill out the section on ZIKV RNA non-reactive blood components in the “Blood and Blood Components Request Form”.

醫院血液及血液成分申請 (醫院血庫專用)
Blood and Blood Components Request (For Hospital Blood Bank Use Only)

血液成分(單位) Blood Component (unit)	O +	A +	B +	AB +	Total
濃縮紅細胞 Red Blood Cell Concentrate (RBC)	3	2	2	NA	7
濃縮白細胞之紅細胞* RBC Concentrate, Leucocyte depleted*					
新鮮冰凍血漿 Fresh Frozen Plasma (FFP)					
低溫沉澱物 Cryoprecipitate (Cryo)					
濃縮血小板 Platelets Concentrate					

病人住院號碼 SS N° : _____ ABO 血型 Blood type : _____
 預計輸血日期 Planned date of transfusion : ____ DD/ ____ MM/ ____ YY
 預產期 Birth due date : ____ DD/ ____ MM/ ____ YY
 懷孕狀態 Pregnancy status : 產前 Antepartum
 圍產期/產後 Peripartum / Postpartum
 非懷孕/不明 Not Pregnant / Unknown
 濃縮紅細胞 RBC _____ 單位 Units 新鮮冰凍血漿 FFP _____ 單位 Units
 濃縮血小板 Platelets _____ 單位 Units 低溫沉澱物 Cryo _____ 單位 Units
 日期 Date : ____ / ____ / ____ (dd/mm/yy) 申請人 Request by : _____
